

# A4 vs Letter

A practical paper-size reference from PosterSheet

## A4

210 x 297 mm

21 x 29.7 cm

Approx. 8.2677 x 11.6929 in

## US Letter

215.9 x 279.4 mm

21.59 x 27.94 cm

Exactly 8.5 x 11 in

A4 is 17.6 mm taller; Letter is 5.9 mm wider.

A4 has about 3.39% more area than Letter.

Neither sheet fits fully inside the other at 100% scale.

## FOR TILED POSTERS

1. Choose the paper actually loaded in your printer.
2. Export the poster again if you change paper size or margins.
3. Print at Actual Size / 100%, one PDF page per sheet.
4. Turn off Fit, duplex, booklet, and multiple-pages-per-sheet modes.
5. Print one test tile and check dimensions before printing all sheets.

Full-page fit ratios, before printer margins:

A4 to Letter: about 94.07%. Letter to A4: about 97.27%.

These fit ratios shrink content. Do not use them for exact-size posters.

This chart is a reference, not a life-size paper template.
